FOOD AND AGRICULTURE ORGANIZATION OF THE UNITED NATIONS

DOCUMENTS OF THE FISHERY RESOURCES DIVISION OF FAO DEPARTMENT OF FISHERIES

Documents which are not official FAO publications are issued in several series. They are given a restricted distribution and this fact should be indicated if they are cited. Most of them are prepared as working papers for meetings, or are summaries of information for use of Member Governments, organizations, and specialists concerned. These series are the following:

FAO Fisheries Report **FIR /R (No.)**
FAO, Rapports sur les pêches
FAO Informes de pesca

Special groups of synopses are identified by symbols followed by classification numbers based on indexed code of "ASFA":

SAST	Data concerning certain species and fish stocks
MAST	Information on methods and subjects
OT	Oceanographic data
IT	Limnological data

DOCUMENTS DE LA DIVISION DES RESSOURCES HALIEUTIQUES DU DÉPARTEMENT DES PÊCHES DE LA FAO

Des documents qui ne figurent pas parmi les publications officielles de la FAO sont publiés dans diverses séries. Ils font seulement l'objet d'une distribution restreinte, aussi convient-il de le préciser lorsque ces documents sont cités. Il s'agit le plus souvent de documents de travail préparés pour des réunions, ou de résumés d'information à l'intention des gouvernements des pays membres, ainsi que des organisations et spécialistes intéressés. Ces séries sont les suivantes:

FAO Fisheries Circular **FIR /C (No.)**
FAO, Circulaire des pêches
Circular de Pesca de la FAO

Des catégories spéciales de synopsis sont identifiées à l'aide de symboles suivis des chiffres de classification basés sur le code d'indexation de la « ASFA »:

SAST	Données sur certaines espèces et populations de poissons
MAST	Renseignements sur des méthodes et des sujets
OT	Données océanographiques
IT	Données limnologiques

DOCUMENTOS DE LA DIRECCION DE RECURSOS PESQUEROS DEL DEPARTAMENTO DE PESCA DE LA FAO

Esta Dirección publica varias series de documentos que no pueden considerarse como publicaciones oficiales de la FAO. Todos ellos tienen distribución limitada, circunstancia que debe indicarse en el caso de ser citados. La mayoría de los títulos que figuran en dichas series son documentos de trabajo preparados para reuniones o resúmenes de información destinados a los estados miembros, organizaciones y especialistas interesados. Estas series son las siguientes:

FAO Fisheries Synopsis **FIR /S (No.)**
Synopsis FAO sur les pêches
Sinopsis FAO sobre la pesca

Grupos especiales de sinopsis se distinguen con las siglas siguientes, seguidas por números de clasificación que se basan en las claves de los índices de la «ASFA»:

SAST	Datos relativos a ciertas especies y poblaciones
MAST	Sinopsis sobre métodos y materias
OT	Sinopsis sobre oceanografía
IT	Sinopsis sobre limnología

FAO Fisheries Technical Papers **FIR /T (No.)**
Documents techniques FAO sur les pêches
Documentos técnicos de la FAO sobre la pesca

Special groups of Technical Papers are identified by:

RE	Indexed list of experts and institutions drawn from registers maintained by the Fishery Resources Division
IN	Provisional editions of inventories and lists of fishery data stored and maintained by the FAO Fishery Data Centre
CB	Lists of periodicals, special sections of "Aquatic Sciences and Fisheries Abstracts (ASFA)," special bibliographies and papers concerning documentation problems
MFS	Provisional editions of "FAO Manuals in Fisheries Science"
WAFR	Provisional reviews of fisheries resources and their level of exploitation, by regions or by species groups, within the World Appraisal of Fishery Resources system

Some documents also have another identification, if, for example, they have been contributed to a meeting for which papers have been numbered according to another system.

Des catégories spéciales de documents techniques sont identifiées à l'aide des symboles suivants:

RE	Listes indexées d'experts et institutions tirées des registres tenus à jour par la Division des ressources halieutiques
IN	Editions provisoires des listes et inventaires concernant les données sur les pêches accumulées et mises à jour par le Centre de données halieutiques de la FAO
CB	Listes de périodiques, des sections spéciales de la «Aquatic Sciences and Fisheries Abstracts (ASFA)», des bibliographies particulières et des articles sur les problèmes de documentation
MFS	Editions provisoires des «Manuels FAO de science halieutique»
WAFR	Synthèses provisoires des ressources halieutiques et leur niveau d'exploitation, préparées, par régions ou groupes d'espèces, dans le cadre du Programme mondial pour l'évaluation des ressources halieutiques

Certains documents portent parfois d'autres numéros d'identification, par exemple s'ils ont été préparés pour une réunion dont les documents ont été marqués à l'aide d'un autre système.

Grupos especiales de documentos técnicos se identifican por las siglas siguientes:

RE	Listas Índices de expertos y de instituciones tomadas de los registros que se llevan en la Dirección de Recursos Pesqueros
IN	Ediciones provisionales de los inventarios y listas de datos de pesca acumulados y guardados por el Centro de Datos Pesqueros de la FAO
CB	Listas de periódicos, secciones especiales de la «Aquatic Sciences and Fisheries Abstracts (ASFA)», bibliografías especiales y trabajos relativos a los problemas de documentación
MFS	Ediciones provisionales de los «Manuales de la FAO de Ciencias Pesqueras»
WAFR	Reseñas provisionales de los recursos pesqueros y de su estado actual de explotación, por regiones o por grupos de especies, en el marco del sistema mundial para la evaluación de los recursos pesqueros

Algunos documentos tienen también otra identificación si, por ejemplo, son contribuciones a una reunión cuyos documentos han sido marcados con arreglo a otros sistemas.

PREPARATION OF THIS REPORT

During the past several years the Fisheries Department of FAO, as part of its work on the development of the Aquatic Sciences and Fisheries Information System (ASFIS), has collected bibliographic details of serial publications (journals, report series, etc.) which regularly include papers on the science and technology of marine and freshwater environments. A list of the titles identified at that time was first published in 1963, and since then the demand for a revised version giving more bibliographic detail has steadily increased.

Substantial work remains to be done in validating the entire file prior to publication, but recognizing that primary scientific literature covering such a virile field as the marine and freshwater environments is in a continuous state of change and expansion, it was felt that this preliminary edition of the "World List of Aquatic Sciences and Fisheries Serial Titles" would help to bridge a clearly identified gap. Unless the rate of change of the relevant body of scientific literature soon reverses its recent trends (which seems highly unlikely), it is expected that subsequent "world lists" based on files already in existence in FAO will increase by five or six times the size of this publication.

The list as published herein was prepared by Mrs. Ingrid Prince-Perciballi with the assistance of Mrs. Gillian Dore-Medichini, and the collaboration of ASFIS input-centres at the All-Union Institute for Oceanographic and Marine Fisheries Research (VNIRO) Moscow, Bundesforschungsanstalt für Fischerei (BF) Hamburg, Centre National pour l'Exploitation des Océans (CNEXO) Brest, Information Retrieval Limited (IRL) London, Institut National de la Recherche Agronomique (INRA) Biarritz, Marine Biological Association of the United Kingdom (MBA) Plymouth, and the National Oceanic and Atmospheric Administration (NOAA), Washington, D.C.

INTRODUCTION

This edition of the "World List of Aquatic Sciences Serial Titles" gives bibliographic details on 1 237 "core" serials monitored for the Aquatic Sciences and Fisheries Information System (ASFIS) - an international information system for the science and technology of marine and freshwater environments. The first section lists current serial titles published regularly or irregularly over an indefinite period and, in addition to the journal literature, includes research report series of institutions, learned societies, congresses, conferences, symposia and government agencies. In the second section, the titles are listed under the name of the corporate or sponsoring body responsible for their publication.

A future publication will augment this core list and include bibliographic information on the much larger number and variety of "peripheral" serials monitored for ASFIS. The augmented version will include a geographic index, listing the titles by country of publication, and a KWOC (key-word-out-of-context) index in which the serial titles will be listed according to the key-words which appear in each individual title.

I. Title Index (pages 1-176)

Serials are arranged alphabetically under their published titles. If the title is generic, e.g., Bulletin, Research Report, it has been expanded to include the name of the corporate body by which, or under the authority of which, it is issued.

Serials that have ceased publication have been excluded, while superseded titles, title changes, and changes of corporate names included in nondistinctive serial titles, have been entered as cross references in order to assist the user in identifying the current title.

In the case of multilingual serials all the titles used have been entered in the title entry, beginning with the first title given on the publication. Cross references have been made from all alternative titles.

The following elements have been included in each serial title entry (when available):

Serial title/Translated title
Abbreviated title according to "International List of Periodical Title Word Abbreviations prepared for the UNISIST/ICSU-AB Working Group on Bibliographic Descriptions"
Name of Issuing body/Sponsoring organization
Name of publisher
Place of publication
Year first published or year of earliest known issue
Frequency
Former title(s)/Subtitle
Series statement, noting subseries, supplement, or numbering information
Languages(s) of text and of summaries, when these differ from the language of the title
Abstracting or indexing service(s) in which the serial title is listed
Country code and International Standard Serial Number

II. Corporate Name Index (pages 177-243)

The Corporate Name Index lists issuing and sponsoring bodies as main headings, with the titles for which they are responsible as they appear in the Title Index.

As a general rule the names of corporate bodies have been entered according to the Anglo-American Cataloguing Rules, under their vernacular form, with cross references from

alternative forms. Where it has not been possible to determine the vernacular form of the name, the corporate body has been entered in the form used on the publication of which it is author, publisher, or sponsor.

Corporate bodies through which the legislative, judicial and executive functions of a government are exercised, have been entered as a subheading under the government jurisdiction of which they are a part.

In the case of such corporate bodies as commercial, cultural or scientific organizations, institutions, trusts, corporations, or other specific enterprises, which are created and controlled by a government, entries have been made directly under their own names.
